DETAILED ACTION

Response to Amendment

This Office Action is in response to the amendment filed on April 4, 2007.

Accordingly, claims 1-3 were canceled. Claims 11-14 were previously canceled.

Currently, claims 4-10 are pending.

Allowable Subject Matter

Claims 4-10 are allowed.

The following is an examiner's statement of reasons for allowance (as stated in the previous office action): none of the prior art of record, taken alone or in combination, fairly shows or suggests all the limitations as recited in the claims.

Re claim 4, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: ashing the resist pattern until removal of the thin resist formed in the channel area is completed; and channel-etching the operation layer with the resist pattern which remains after the ashing.

Re claim 7, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: ashing the resist pattern until removal of the thin resist formed in the pixel electrode formed area is completed; and etching the gate bus-line layer in the pixel electrode formed area with the resist pattern which remains after the ashing.

Re claim 10, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: ashing the resist pattern until removal of the thin resist formed in areas other than the pixel electrode formed area is completed; and

Art Unit: 2822

etching the transparent conductive film layer with the resist pattern which remains after the ashing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
